

Nursery and Primary 1 'Clothes'

Week 2

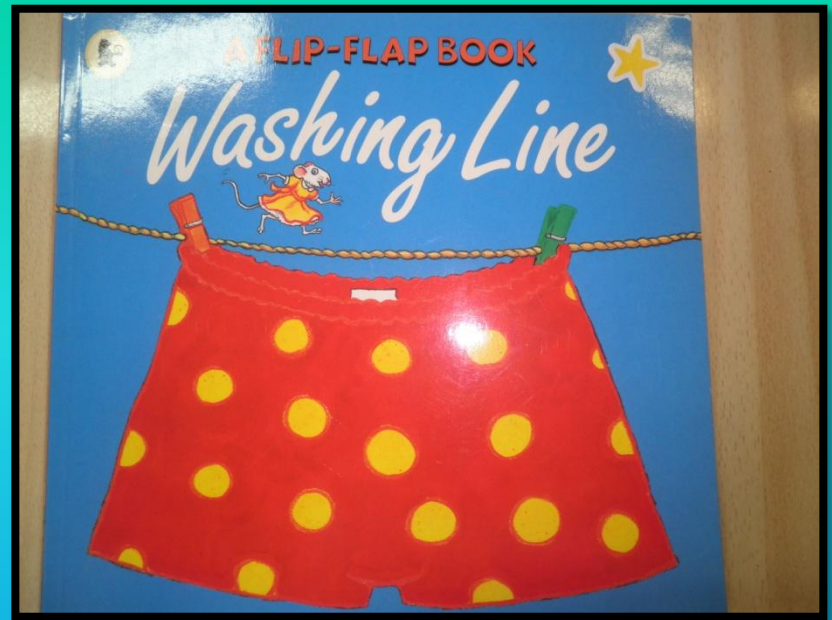

It has been a very busy week for 'Talking Tim'. He has been helping us to talk about our counting and making sure we use our counting finger. He has shown us lots of different clothes and we have talked about what we can see and we have used a map to find out where they come from. We have talked to share ideas, to say what we think and to practise our numbers.

The round table had lots of different clothes on this week. Lots of us enjoyed using it during our choosing time. We had to choose the right parts, decide what went where and what the different things were.

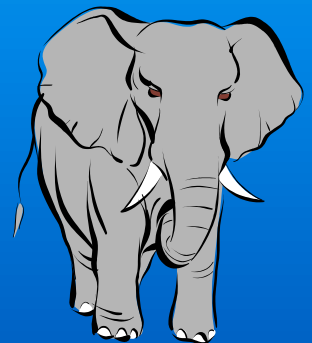

We made spotty t-shirts to practise our counting skills. Some of us had to put 3 spots, 5 spots or 8 spots on. Some of us put on 14 spots, 11 spots or 16 spots !

During the week we read a book about a washing line. We talked about what happened and the next day in choosing time we could act the story out if we wanted. Maybe you can ask us what clothes the animals had on the line.

We also worked with Metal Mike this week. He is a robot and talks in a funny way. It's quite tricky to talk like a robot and it's tricky to hear what he is saying.

If he sees a cat he says it is a c.....a.....t. We practised saying and jumping the sounds in different words so that metal mike could understand us.

b...a...t

We explored some books to see what clothes people were wearing. We saw pyjamas, baby grows, masks, stripy t-shirts and flowery dresses. Clothes can tell you lots about a person.

We then worked in groups to make our own books. We only had 1 picture so we had to talk and share ideas about what clothes were needed and what the person was like.

In our choosing time some of us also discovered some interesting things to do on the making table and soon it was a very busy place! Maybe if you have some empty boxes you could send them in to help replenish our supplies!

We also got very excited when someone spotted this little chap during playtime. We spent some time looking at him and talking about frogs. Another great way to practise sharing our ideas and develop our talking skills.

Happy Birthday Everyone

We also had 2 birthdays this week. Happy Birthday from all your friends at Ecole Yenzi xx
